

MEDALLIONS

Create a point of focus for your light fixture using a medallion from Focal Point®. Once only available in molded plaster, these medallions replicate the handcrafted work not readily available

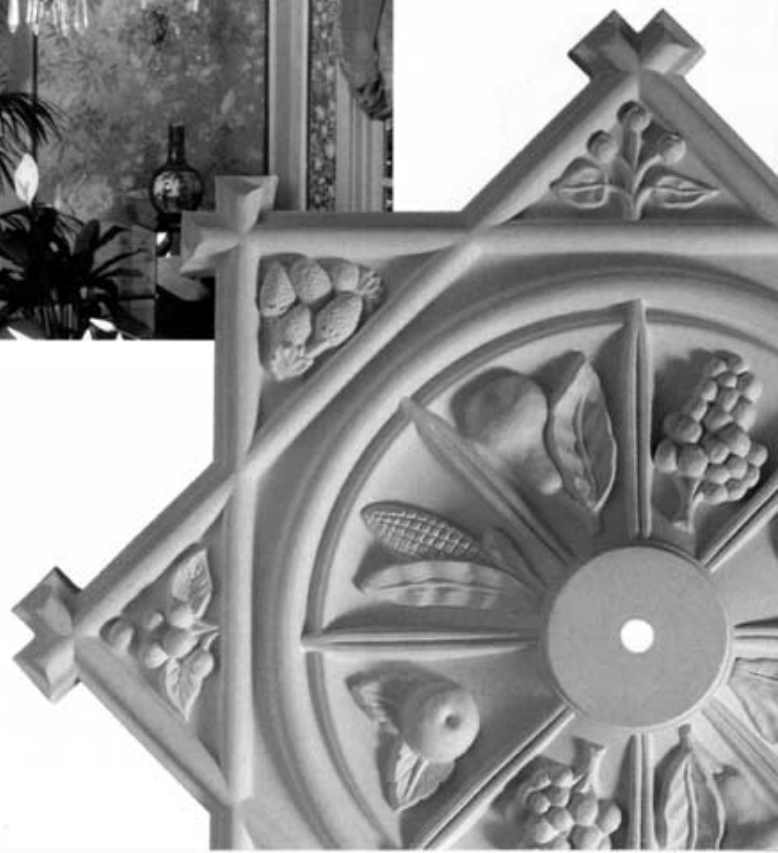

today. We recommend that the diameter of the medallion be larger or smaller than the diameter of the light fixture - not the same size.

Kenwood Medallion, No. 80930

FEATURES

- *lightweight*
- *highly detailed*
- *easy to install*

MEDALLIONS

Crafted in lightweight, high density polymer, medallions are easy to install. Adhesive is not needed - just nail or screw into place, and caulk where the medallion meets the ceiling. Medallions are

drilled with 1" holes unless otherwise indicated, but most may be ordered without holes. If the medallion hole needs to be filled, use joint compound, spackle or wood filler.
